MATERIALS FOR SEEING THE WORD

Audio reflections are found online at <http://blog.seeingtheword.org>

Reflections can be browsed by illumination, or by using the Discipleship Curriculum, which correlates the audio reflections with the "ripple effect" model of growing in Christian discipleship.

After choosing an audio reflection, set up the environment as detailed above and follow the desired process (either 30 minute or 90 minute format) with the small group, family, community, or as an individual.
